

Logic Trends Inc., Continues Success with Microsoft Identity Management

ATLANTA, GEORGIA (July 6, 2007) Logic Trends, Inc. is pleased to announce the completion of three key Microsoft-based Identity and Access Management (IAM) Engagements. Successful projects at Borders, Dow Corning and Sensata Technologies add to the long list of Microsoft-based IAM customers, as this demonstrates how they have benefited from our proven and repeatable IAM processes and methodologies. Logic Trends is one of the few consulting firms in the U.S. focused exclusively on security and IAM solutions.

Logic Trends is a leading technology services, consulting, and systems integration firm focused on Identity and Access Management ("IAM"). The firm has developed a number of Successful Proprietary Methodology and Software Tools that provide the company with a competitive advantage in the IAM marketplace. Logic Trends deployment process includes project management, architecture design, platform and application technical expertise, and experienced process design resources to successfully build, deploy, and integrate IAM solutions into its clients' environments. Logic Trends is a go to partner for the leading IAM Software companies in the market.

"We are pleased to have to have these organizations join our long list of successful Microsoft-based customers" said Andrew Ames, VP Sales & Marketing of Logic Trends. "Having performed over 100 Identity and Access Management engagements clearly demonstrates our commitment to the Identity Management space, and value to our customers and partners. There are very few firms in the nation who can match that experience."
