

LOGIC TRENDS & MICROSOFT: PARTNERS FOR IDA SUCCESS

Logic Trends is a leading service, consulting and systems integration firm with a dedicated Practice focused on Microsoft Security, Identity and Access Management. Since forming our Identity Management practice in 2002, Logic Trends has provided solutions that enabled customers to increase security, efficiency, compliance and reduce costs. Our team has sold, led, managed and deployed hundreds of Security, Access and Identity Management solutions with Global 2500 clients in a wide range of industries. To best meet your needs, Logic Trends maintains regional sales and delivery coverage in the Northeast, Southeast, Mid-Atlantic, South Central and Midwest.

WHEN EXPERIENCE COUNTS, COUNT ON LOGIC TRENDS

Logic Trends' dedicated Microsoft Practice provides incomparable experience and dedicated resources to meet your IDA project requirements:

- Experienced Microsoft Practice Lead with 10 years of ground-breaking Microsoft IDA experience
- Hundreds of Microsoft ADS, POC and Solution Deployments
- Highly-trained and experienced Architects and Engineers
- Artifacts, Widgets and Best Practices developed through hundreds of successful IAM projects
- Dedicated Microsoft Solutions Lab with virtual access
- Full strategic and technical competency in the entire IDA suite
- Member of Microsoft's Directory Access & Information Protection (DAIP) Group
- Dedicated FTE Virtual Technical Specialist Roles within Microsoft
- Aggressive Training and Resource Development
- Certified for Forefront Deployment Planning Services

WHAT OUR MICROSOFT CUSTOMERS SAY

"The Logic Trends' (IAM5™ Envisioning) WorkShop gave us a major head start in mapping out our key identity and access management processes. It gave us a lot of confidence knowing that we had experienced professionals guiding us and sharing best practices. We've been able to reduce the 40 hours a quarter spent auditing identity credentials to as few as 10 hours."
- Richard Condello, Director of Business Services and Information Security, National Rural Electric Cooperative Association

"The firm's integration experts know identity and access management technology like no other services group in the industry. With Logic Trends' expertise behind us, we have met every milestone in our project roadmap to date."
- Paul Bailey, IT Project Manager, The Washington Post Company

"Because we have strengthened our IT governance structures in so many different ways by using Forefront Identity Manager, we can be more responsive in meeting changing compliance rules. This agility gives us a big competitive edge."
- Martin Hardy, IT Services Manager, Maxim Healthcare
