

“Identity and access management (IAM) programs address complex issues of accountability and transparency of access for enterprises. Such programs must be planned and implemented in a formal and professional manner, much like any critical IT system. IAM consulting and integration partners are the professionals, and for all but the smallest and simplest projects are necessary for success.”

- Earl Perkins, Gartner

COMPANY OVERVIEW

The Identity and Access Management Specialists

WHO WE ARE

Logic Trends is the leading services, consulting and systems integration firm focused on Security, Identity and Access Management (IAM):

- Our US-based expert team of IAM specialists averages 12 years of experience.
- Since 2002, our focus has been exclusively Identity Management and Access Governance consulting, allowing us to build best-in-class foundation of intellectual property and services to address your most challenging initiatives.
- National presence with offices in Atlanta, Chicago, Dallas and New York.
- Five-time Inc. 500 Honoree, Entrepreneur Hot 500 recipient, and selected as a DiversityBusiness.com Top Business.

“Their IAM thought leaders and technical experts know identity and access management like no other services group in the industry. They continue to exceed our expectations, and with Logic Trends as our partner, we're confident that we'll continue to meet our project milestones.”

- Mike Albano, Program Manager - Global IT Risk Management, Aon

WHAT WE DO

As a strategic partner, Logic Trends delivers unmatched IAM knowledge and solution programs that can help you effect lasting change in IT and business processes. Our vast experience developing strategic approaches and solutions for nearly every vertical market allows us to leverage a wealth of experience and expertise in solving your IAM challenges. Through our proven IAM5™ Process, we provide strategic guidance, implementation and support services that incorporate the leading platforms and best-in-breed solutions.
